

Himanshu Ghosh

"Award-winning 2nd Year B.Tech CSE student (Best Intern Award @ CodeAlpha) with strong experience in Java, Python, and Software Engineering. Proficient in OOP, Data Structures & Algorithms, and building scalable web applications. Experienced in collaborative development using Git and delivering quality software under real internship conditions. Passionate about core engineering, system design, and building products that solve real problems."

Work Experience

SoftwareEngineerIntern , CodeAlpha IT Services Pvt. Ltd.

• **Oct 2024 - Nov 2024** [Also Received Best Intern Award]

- Developed 3+ responsive web applications using HTML, CSS, and JavaScript, improving UI performance and load efficiency by ~30%.Used Git and version control for collaborative development. Focused on performance optimization and UI efficiency.

Tech Used : HTML5, CSS3, JavaScript, Git, GitHub , Kafka

Skills : Front-End Development, UI/UX, Problem Solving, Version Control

Projects:-

- **Emotion Detection System using Machine Learning**
 - Built an end-to-end ML pipeline using the FER2013 dataset (35,000+ images) for real-time facial emotion classification.
 - Performed data preprocessing, feature extraction, and model training using Python (NumPy, Pandas, Scikit-learn / TensorFlow).
 - Achieved ~85-90% classification accuracy across 4+ emotions (Happy, Sad, Angry, Neutral).
 - Improved model performance by ~15% through hyperparameter tuning and evaluation metrics.
- **Expenses Tracker Web App**
 - Developed an Expense Tracker web app using HTML, CSS, and JavaScript, used by 30+ users to manage daily expenses, improving tracking efficiency by ~45%.
 - Implemented add/delete functionalities with an intuitive and responsive UI.
- **GUI Application With Java, Python**
 - Built a desktop application using Java with OOP principles including inheritance, encapsulation, and interfaces
 - Integrated Python scripts for backend logic and data processing
 - Designed an interactive UI using Java Swing for seamless user experience"

CSE Fundamentals :-

- Data Structures & Algorithms (45+ problems solved on LeetCode/GFG), Time & Space Complexity, OOPs, Recursion, Sorting, Searching.
- Basic System Design: REST APIs, client-server architecture, database schema design, scalability concepts.
- **Hard Skills** : Provide technical Guidance , engineering principles, product requirements, Product Quality, user needs.
- Github / Git , version control , CI CD Pipelines , ML datasets

Educational Background

Dev Bhoomi Uttarakhand University , Dehradun

B.Tech Computer Science (2024-2028)

- Aggregate **8.55 CGPA** in First Three Semesters.
- Participated in Multiple Hackathons & Became the Lead in IEEE

St. Mary's Convent Sr. Sec. School, Vikasnagar

Class 12th - 2024 | 80%

St. Mary's Convent Sr. Sec. School, Vikasnagar

Class 10th - 2022 | 86.4%

Skills

Technical Skills

- Java (1+ Year Exp.), Python
- (3+ Year Exp.), C/C++, Data Structures & Algorithms,
- OOPs, MySQL / SQL, Django,
- Frontend Development (HTML,
- CSS, Javascript, React)

ML :_

- Currently exploring:
- Flask,
- Docker,
- AWS basics"
-
-
-

Tools :-

- Git / Github, VS Code,
- Jupyter Notebook,
- Apache Kafka (Basic)

Achievement & Extra :

- Awarded Best Intern at CodeAlpha (Nov 2024) for delivering high-quality software projects
- Selected for multiple SDE internship roles (HCL TechBee, Zoho, AcmeGrade)
- Solved 45+ DSA problems, demonstrating strong problem-solving and algorithmic thinking
- Developed machine learning projects and deployed 5+ web applications
- Strong foundation in Python, Java, DSA, and Machine Learning fundamentals
